About Me

I'm a Full Stack Developer turned Tech Lead with over **5+ years of hands-on experience** building web and mobile applications. Over the years, I've grown from writing code independently to leading teams, managing projects, and making technical decisions that directly impact business outcomes.

I enjoy solving real-world problems through technology, mentoring developers, improving team processes, and ensuring projects are delivered on time without compromising quality.

What I Do Best

- **Lead and guide** development teams
- Plan and manage sprints in **Agile** environments
- Design scalable and maintainable system architecture
- **Review code and maintain quality standards.**
- **Communicate with clients** and translate business needs into technical solutions
- Deliver projects from idea to deployment

Leadership Approach

I believe a Tech Lead's role is not just about writing code, but about:

- **Supporting the team**
- Making clear technical decisions
- Taking ownership of delivery
- Maintaining **transparency with stakeholders**
- Creating a **positive and productive work environment**

Technical Skills

- **Frontend:** React.js, Next.js, HTML, CSS, JavaScript, TypeScript
- **Mobile:** React Native
- **Backend:** Node.js, Express.js, PHP, Laravel, Python
- **Database:** MySQL, MongoDB
- **Tools:** Git, GitLab, GitHub, Postman, Firebase, REST APIs, CI/CD, Google Console, AWS, Facebook Console
- **AI & Tech:** ChatGPT(multiple versions), Google Gemini, Vonage, Persona, Canva, Runway, Info-Image-Video-Prompt generation, Game integration, Unity Game,

Professional Experience

Freelancer / Self-Employed

Nov 2025 - Present

- Actively handled client communication, aligning requirements, milestones, and deliverables.
- Managed end-to-end project delivery from concept to deployment, meeting client expectations and timelines.
